**HOW WE PROTECT YOUR DATA:**

We protect our members data in compliance with the GDPR Privacy Laws of 2018. The data we hold is restricted solely to contact information required to process club membership and contact members with information in regard to club activities. This consists of membership number, name and address, telephone number (where provided) and e-mail address plus, for junior members, date of birth.

Additionally the last payment date and expiry date are recorded. Members can opt out at any time by contacting the club secretary.

Members can request what details the club holds about them at any time. Records of members contact information are held by the Club Secretary and Treasurer on secure computer systems.

Contact information is held only as long as a member continues to pay their subscription. If this should lapse members will be given a reminder to renew. Should they decide to discontinue membership their details will be removed from our database.

Members will be requested to confirm that their contact information is correct each year when they renew their membership and consent to us holding it. The club does not retain any financial information that might be given to it in regard to membership renewals.

By signing below you consent to us holding your data solely for the purposes we have described. You agree also to abide by the rules of Chingford Model Flying Club.

**INFORMATION ABOUT CAA DRONE REGISTRATION REQUIREMENTS:**

**Operator ID:** Anyone over 18 years old, responsible for a drone or unmanned aircraft (weighing between 250g and 20kg (flying outdoors) must register as an operator and get an **Operator ID**. This is a £9 fee payable to the CAA.

Under 18 year olds do not pay the **Operator ID** fee. A parent/guardian must register for an **Operator ID** on their behalf and pay the fee. If the parent/guardian is also a model flyer and has an existing **Operator ID**, the under 18yo can fly using their ID. The under 18yo must still do an online test for their **flyer ID** if they do not have a minimum qualifying 'A' certificate.

We believe it simplest for members to pay the fee to us which we forward to the CAA but they can pay the CAA directly if they so choose.

**Flyer ID:** If you have a recognised achievement like an 'A' certificate you do not need a **flyer ID**. Otherwise you do need a **flyer ID**. You get this by completing a simple online competency test (<https://register-drones.caa.co.uk/individual>).

If under 13yo their parent/guardian should register them with the CAA. The child must still take a **flyer ID** test if they do not have a minimum qualifying 'A' certificate .

For clarification about CAA drone regulations visit <https://register-drones.caa.co.uk/>
